Frontend Development: React, Next.js, TypeScript, Redux, Tailwind CSS

Backend & Databases: Java, Spring Boot, REST APIs, WebSockets, PostgreSQL

Tools & Methodologies: Git, GitHub, Postman, Figma, Scrum / Agile

Soft Skills: Problem-solving, Cross-functional Communication, Teamwork

SUMMARY

Software Developer with strong Java experience and growing backend skills using Spring Boot and REST APIs, along with frontend development using React and Next.js. Skilled in building scalable applications, working with SQL databases, and applying clean architecture principles. Currently studying Systems Engineering at CUNOC and looking for a Junior Software Developer position to contribute to impactful projects and strengthen my full-stack expertise.

EXPERIENCE

Senior Customer Service Specialist, TELUS Digital, Quetzaltenango, Guatemala (Remote)
Sep 2022 - May 2025

- Handled escalated customer calls and provided supervisor-level support for billing issues, including electric service payments and account management.
- Diagnosed UX friction points in web and mobile apps while supporting international clients, improving resolution time and developing practical understanding of user behavior and interface usability.
- Developed strong communication, problem-solving, and customer experience skills by supporting international clients in high-pressure scenarios.
- Built strong client relationships in a high-volume support environment, with customers specifically requesting to be assisted by me. Demonstrating consistent trust, communication quality, and service reliability.
- Achieved top performance metrics, consistently exceeding targets by 10%.

EDUCATION

Instituto de estudios avanzados (IEA), High School Diploma – Science and Letters (Computer Science Emphasis), Quetzaltenango, Guatemala

University of San Carlos of Guatemala (CUNOC), BSc. Systems Engineering (In Progress), Quetzaltenango, Guatemala
4th Year Student
